

NAVNEET SINGH

+91 9140333359 ◇ Kanpur, UP

[Gmail](#) ◇ [LinkedIn](#) ◇ [GitHub](#)

OBJECTIVE

B.Tech (AI & Data Science) undergraduate with strong foundations in programming, data structures, and machine learning. Experienced building full-stack and backend systems in Java and Python, with hands-on experience integrating AI/LLM capabilities into production-style applications.

EDUCATION

B.Tech – Artificial Intelligence and Data Science

Pranveer Singh Institute of Technology, Kanpur
CGPA: 7.8

Expected 2027

Higher Secondary Education

St. Joseph's Sr. Sec. School
Percentage: 81%

2023

SKILLS

Languages Python, Java, Rust

Backend Spring Boot, Spring Security, JWT, OAuth 2.0, PostgreSQL, REST APIs, FastAPI

AI / ML LangGraph, RAG, LLM Integration (Groq, Mistral), NLP, Generative AI

Core CS Data Structures & Algorithms, OOP, DBMS, System Design

Tools Git, GitHub, ChromaDB, FAISS, SQLite, LangSmith

PROJECTS

Healthcare Appointment & Follow-up Manager

[GitHub](#)

Java · Spring Boot · PostgreSQL · JWT · OAuth 2.0 · Groq AI

- Designed a full-stack clinic platform with role-based portals (patient, doctor, admin), JWT auth, and a PostgreSQL partial unique index preventing double-booked slots.
- Integrated Groq LLM for urgency-tagged pre-visit summaries plus patient-friendly post-visit summaries, and wired up Google Calendar and email confirmations.

RepoMind — Multi-Agent GitHub Code Assistant

[GitHub](#)

Python · LangGraph · FastAPI · RAG · LangSmith

- Built a multi-agent pipeline (Planner, Coder, Reviewer, Tester, PR agents) using LangGraph to answer questions about and modify GitHub codebases via RAG.
- Implemented human-in-the-loop approval with retries, and integrated LangSmith for pipeline observability and debugging.

LegalMind — AI Legal Document Assistant

[GitHub](#)

Python · FastAPI · RAG · ChromaDB · DeepEval

- Engineered a fully local RAG pipeline (ChromaDB, SentenceTransformers, Mistral via Ollama) with per-session isolated vector stores, reducing manual search time by 80%.
- Built a DeepEval evaluation harness scoring faithfulness, relevancy, and contextual precision to drive concrete retrieval and prompt tuning.

CERTIFICATIONS

- Rust Programming — Coursera, 2023
- Data Structures & Algorithms in Java — NPTEL, 2024
- Machine Learning: Supervised Regression — Coursera, 2024
